**SPECIAL DIETARY NEEDS:** We're working with the *chefs extraordinaire* at our host camp facility to create a great menu that blends super-yummy tricked out grown up versions of traditional camp fare with options for campers who are more "discerning" about what they put into their bodies. So we'll be sure to have things like vegetarian, vegan fare and gluten-free options for all.

We will have snacks available, but if you have your own special food preferences and branded edibles, like special breads or protein or snack bars or gluten free, sugar free, dairy free, everything free bars, air-baked, made by lamas snacks, we suggest you bring those with you.

We're planning a **TALENT NIGHT** so if you're thinking about sharing that special gift that's just gotta get out and you need accessories or gear, feel free to bring it along with you (provided it's not going to impose on anybody's personal space in the bunks. So, if your special talent is taming wild stallions, please leave the stallions at home).

**BRING YOUR COLOR GAMES COLORS:** You'll be getting your team assignment the week before arriving at camp, so be sure to look out for that email and bring something to wear that represents your team color. As a special perk, we'll have an orthodontist on site, installing braces with headgear that sports the color rubberbands of your team (#kidding #kinda).
